PROJECT PROFILE | FREELANCER

Erman Temiz

Project Manager, Plant Engineering & Industry · Industrial Engineer (B.Sc.) · MBA

Phone: +41 76 635 81 14 | Email: kontakt@ermantemiz.ch

Web: ermantemiz.ch | LinkedIn: linkedin.com/in/erman-temiz

KEY FACTS

Availability	**from 01/2027** part-time (up to 60%), from 05/2027 up to 100%
Locations	German-speaking Switzerland, Baden-Württemberg, Bavaria · on site, hybrid or remote · based in the Zurich/Aargau region
Rates	Hourly or daily rate on request, depending on scope and location
Contract	Freelance · permanent employment or contracting via agency on request
Languages	German (second native language) · Turkish (native) · English (good)
Certificates	Six Sigma Green Belt · PMP® (PMI) in preparation
Industries	Plant engineering (dosing/water technology) · Automotive OEMs & suppliers · E-mobility · Vehicle engineering

SUMMARY

Industrial engineer (B.Sc.) with an MBA and around ten years of experience in project management, assembly, manufacturing and logistics planning, and quality management. Most recently Project Manager, Plant Engineering at ProMinent Dosiertechnik AG, responsible for projects from order to commissioning and acceptance. Before that, project assignments with car manufacturers and suppliers, including ZF Friedrichshafen, Daimler, BMW, Audi, Deutsche Accumotive, Rheinmetall, Lear and TI Automotive.

COMPETENCES

Competence	Details	Level
Project management	Schedule, cost and resource control; supplier coordination; commissioning, acceptance	●●● very good
Quality & audits	VDA 6.3 process audits, supplier audits, FMEA facilitation, 8D, A3, 5W	●●● very good
Assembly & manufacturing planning	Assembly lines, line balancing, test benches, series launch	●●● very good
Logistics & layout planning	Material supply, supermarket and area planning, plant set-up	●●○ good
Lean & work measurement	Lean management, MTM / MTM-UAS, 5S, CIP, shop floor management	●●○ good
Engineering documentation	P&ID diagrams, review/approval of CAD drawings, declarations of incorporation	●●○ good
Purchasing & material planning	Technical purchasing, supplier evaluation, material planning, capacity planning	●●○ good
Software	MS Project, MS Visio, MS Office	●●● very good
ERP	SAP R/3 (MM, PP), ABAS ERP	●●○ good
CAD / BIM	SMAP3D, BIM Collab, SolidWorks	●○○ basic

02/2024 – 02/2026	P-01 **Project management for dosing and water treatment plants**
Company	ProMinent Dosiertechnik AG, Regensdorf (CH)
Role	Project Manager, Plant Engineering
Industry	Plant engineering · water and wastewater technology
Tools	MS Project, SAP, MS Office
Tasks	• Managed plant projects from order to commissioning and acceptance, incl. precipitant dosing at the Emmenspitz wastewater treatment plant (Zuchwil SO) • Created P&ID diagrams; reviewed and approved CAD drawings and technical documents; risk analyses and declarations of incorporation • Project and schedule planning; coordinated pre-assembly, final assembly, commissioning and acceptance • Supplier selection and coordination; organised packaging and transport • Cost control, final invoicing and post-calculation

05/2022 – 02/2024	P-02 **Quality and processes in automotive production**
Client	ZF Friedrichshafen AG
Via	ALTEN GmbH / ALTEN Consulting Services GmbH
Role	Engineering Consultant / Quality Engineer & Auditor
Methods	VDA 6.3, FMEA (IQS), 8D, A3, 5W, Lean, MTM, 5S, CIP
Tasks	• Planned and conducted VDA 6.3 process audits in production and supplier audits • Facilitated FMEA sessions, documentation and action tracking • Prepared and coordinated 8D, A3 and 5W reports; assessed safety-critical characteristics • Analysed and optimised production processes; responsible for quality projects

02/2020 – 08/2020	P-03 **Production planning and logistics in series manufacturing**
Company	Delignit AG (Blomberger Holzindustrie GmbH), Blomberg
Role	Deputy Head of Logistics / Production Planning
Tools	ABAS ERP
Tasks	• Planned and controlled processing of semi-finished and finished parts with regard to cost, capacity and deadlines • Technical feasibility checks, capacity planning, technical costing, BOM and master data maintenance • Material planning, stock control and on-time delivery in coordination with production, sales, quality and purchasing

02/2019 – 01/2020	P-04 **Assembly lines for Li-ion batteries**
Client	Deutsche Accumotive GmbH, Kamenz
Via	SALT AND PEPPER Technology
Role	Technology Consultant / Production Planner
Industry	Automotive · E-mobility
Tasks	• Implemented the plant concept for Li-ion battery production through to handover to production • Independently planned, procured, commissioned and optimised complex assembly lines and test benches • Managed and qualified equipment suppliers; evaluated machine and process capability

02/2018 – 09/2018	P-05 **Manufacturing planning and production relocation**
Client	Rheinmetall Landsysteme GmbH, Kassel
Via	FERCHAU Engineering GmbH
Role	Production Planner / Manufacturing Planning
Tasks	• Planned a production relocation and estimated costs for manufacturing moves, refurbishment and a noise protection booth • Designed temporary workshop, calibration and measuring areas and the utility supply for three starter/generator test benches • Routings, manufacturing BOMs, cycle, lead and operation times; series launch of new projects

08/2016 – 05/2017	P-06 **Assembly planning at automotive suppliers**
Clients	Lear Corporation · TI Automotive (Ettlingen)
Via	Hays Professional Solutions GmbH
Role	Assembly Planner / Production Planner
Tasks	• Designed and optimised processes and assembly equipment; set up and organised production areas • Determined production times, line balancing, layout design, cost reduction measures

01/2016 – 07/2016	P-07 **Technical purchasing and supplier management**
Client	DESTACO Europe GmbH
Via	FERCHAU Engineering GmbH
Role	Technical Buyer
Tasks	• Negotiated prices, contracts and payment terms; analysed international procurement markets • Supplier selection, evaluation and development; implemented cost reduction potential

05/2015 – 12/2015	P-08 **New plant in Brazil – logistics and assembly planning**
Client	Daimler AG, Sindelfingen
Via	Ingenics Services GmbH
Role	Project Engineer
Tools	MS Visio, MTM
Tasks	• Logistics planning for the W205 model series; planned material supply and delivery • Detailed line balancing and verification (interior, chassis, EOL, finish) for the X156 model series • Supermarket, logistics area and layout planning; process evaluation using MTM

09/2013 – 10/2014	P-09 **Process planning in car assembly**
Client	BMW
Via	EDAG Production Solutions
Role	Assembly Planner
Tasks	• Process planning for car assembly and integration of a new model into an existing assembly line • Requirement specifications for equipment of a CKD truck assembly; ergonomic analyses for a CKD vehicle assembly in Brazil

02/2013 – 08/2013	P-10 **Manufacturing planning and work measurement**

Client	AUDI AG, Neckarsulm
Via	BrainOn GmbH
Role	Project Engineer, Manufacturing Planning
Methods	MTM-UAS, CIP
Tasks	• Manufacturing planning and evaluation of process alternatives in the AP system; production time analysis with MTM-UAS • Planned and introduced production equipment; improvement proposals and CIP measures

EDUCATION

ongoing – 2027	MBA in Strategic Management (part-time)
04/2009 – 06/2012	B.Sc. Industrial Engineering, HTW Berlin – bachelor thesis at Fraunhofer IPK Berlin
04/2011 – 09/2012	Internship / working student: Robert Bosch GmbH · Siemens AG, Energy Sector

Structure. Communication. Responsibility.
